Adjunct Assistant Professor, Tulane University School of Architecture
Principal, Colectivo LLC
“Methods of Assembly”
Monday, March 2, 2015, 12 PM
ROOM 204

A native of South Louisiana, Emilie Taylor is the Assistant Director of Design Build at the Tulane City Center, Adjunct Professor at the Tulane School of Architecture, and a practicing Architect in New Orleans. Taylor’s education includes a technical building background at the University of Southern Mississippi followed by a Masters Degree in Architecture at Tulane, and work with BILD design in New Orleans. Through the Tulane City Center Emilie is able to work on projects and community partnerships that provide opportunities for faculty and students to engage real issues in the community through design. She is actively involved in university design/build and advocates for the engagement of such programs with the local community. Taylor’s recent design build studio projects include LOOP’s Gathering Pavilion, and Grow Dat Youth Farm.

Emilie’s professional practice involves exploring the intersection between design and fabrication through Colectivo, a small firm in New Orleans she started along with Seth Welty and Dan Etheridge. The firm is a collective of creative, design-based thinkers who try to bring a bit of fun and social consciousness to projects ranging in scale from architecture to ecology and from furniture design to film.
